

## JEFF TALMAN INSTALLATION

---

### **INNER NATURE (2008)** Bavarian Forest Triptych

Sound Installation

Gibacht, Bavarian Forest, Germany

Located near the mountain's summit, INNER NATURE (2008) completes a trilogy of forest installations close to sites of previous work, SENTINEL TO THE WIND (2006) and WHITE SOUND DOWN (2007). The new installation sound, a sonic field shaped from principle frequencies extracted from a recording of wind rustling through the trees, is complemented by the programs from the previous installations to form a three-part work, a sixty-minute cycle of sound presented for the first time in entirety.

presented by Berghof Gibacht  
Gibacht (Waldmünchen), Germany  
May 28 – June 29, 2008 (subsequently extended to August 31)

Project support: Berghof Gibacht, Die Stadt Waldmünchen, Volkshochschule Waldmünchen, the Voithenberg Foundation, Kulturverein Bayrischer Wald e.V., the Berufsverbandes Bildender Künstler Niederbayern/Oberpfalz e.V, the John S. Guggenheim Foundation and the Bogliasco Foundation.
